AstraZeneca Virtual Internship Program In UK 2025

Description

AstraZeneca is seeking a dedicated and innovative professional to join our dynamic team in the pharmaceutical industry. As a leader in biopharmaceuticals, we are committed to discovering, developing, and delivering life-changing medicines that improve patient outcomes. This position offers the opportunity to work at the forefront of science and technology, contributing to the advancement of healthcare solutions.

Responsibilities

- Conduct research and development activities to support the formulation of new drug products.
- Collaborate with cross-functional teams to drive projects from conception through to implementation.
- Ensure compliance with industry regulations and AstraZeneca's quality standards.
- Analyze data to provide insights that influence strategic decisions and product development.
- Participate in the preparation and review of technical documentation and reports.
- Engage with stakeholders to identify and address operational challenges.

Qualifications

- A degree in Pharmaceutical Sciences, Chemistry, Biology, or a related field.
- Strong understanding of the drug development process and regulatory requirements.
- Proven ability to work collaboratively in a team-oriented environment.

Job Benefits

- Competitive salary and comprehensive benefits package including health, dental, and vision insurance.
- Opportunities for professional development and career advancement.
- Access to AstraZeneca's Employee Assistance Program and wellness initiatives.
- A supportive and inclusive work culture that values diversity and innovation.

Experience

- Minimum of 3 years of experience in the pharmaceutical industry or a similar field.
- Experience in research and development, particularly within a biopharmaceutical setting, is highly desirable.

Skills

- Excellent analytical skills with the ability to interpret complex data.
