## Buro Happold Internship For Graduate Students

### Description

Embark on a rewarding journey with Buro Happold, where innovation meets opportunity. Our internship program is designed to provide aspiring professionals with hands-on experience in the engineering and consultancy industry, fostering both personal and professional growth.

As a Buro Happold intern, you will be immersed in a dynamic work environment, collaborating with industry leaders on cutting-edge projects. Our program offers exposure to a variety of disciplines, including engineering, architecture, and environmental consultancy. You will play a vital role in real-world projects, contributing to the sustainable and innovative solutions that Buro Happold is renowned for.

### Responsibilities

- Assist in the development and execution of project plans.
- Conduct research and analysis to support ongoing projects.
- Collaborate with multidisciplinary teams to deliver innovative designs and solutions.
- Participate in meetings and presentations, gaining insights into project management.
- Support the preparation of technical reports and documentation.

### Qualifications

Candidates should be pursuing a degree in engineering, architecture, or a related field. We seek individuals who demonstrate strong analytical skills, creativity, and a passion for sustainable development. Previous coursework or projects related to engineering or design will be advantageous.

### Job Benefits

Interns at Buro Happold enjoy a supportive and inclusive work culture that values learning and development. Benefits include mentorship from experienced professionals, networking opportunities, and the chance to work on impactful projects. Additionally, interns gain access to company resources and training programs designed to enhance their skills and career prospects.

### Experience

This internship offers valuable experience in a renowned global consultancy firm. Interns will learn from industry experts, enhance their problem-solving abilities, and gain a comprehensive understanding of how innovative projects are executed from concept to completion.

### Skills

- Excellent communication and teamwork skills.
- Proficiency in relevant software such as AutoCAD, Revit, or similar design tools.
- Critical thinking and problem-solving abilities.
- Strong organizational skills and attention to detail.
