Cushman And Wakefield Internship Program For Graduate Students 2025

Description

The Cushman and Wakefield Internship program offers a dynamic and immersive experience in the real estate industry. Interns will have the opportunity to work within various departments such as asset services, investment sales, project and development services, or research. This program aims to provide hands-on experience and a comprehensive understanding of real estate operations and strategies.

Responsibilities

Interns at Cushman and Wakefield will engage in a variety of tasks, including but not limited to:

- Assisting in the preparation and analysis of market research reports.
- Supporting project teams with data collection and presentation preparation.
- Participating in client meetings and contributing to strategic discussions.
- Collaborating with team members on strategic planning and development initiatives.
- Conducting site visits and property evaluations when necessary.

Qualifications

Applicants should currently be pursuing a degree in real estate, business, finance, or a related field. Strong analytical and problem-solving skills, along with a keen interest in the real estate sector, are essential. A minimum GPA of 3.0 is typically required.

Job Benefits

Interns will gain valuable exposure to the real estate industry and have the opportunity to network with professionals across various departments. The program also offers mentorship from experienced industry leaders and the potential for full-time employment upon successful completion.

Experience

While prior experience in real estate or a related field is advantageous, it is not mandatory. Previous internships or coursework in finance, business management, or urban planning would be beneficial.

Skills

Essential skills for the internship include strong communication and interpersonal abilities, proficiency in Microsoft Office Suite, particularly Excel, and the capacity to work both independently and as part of a team. An understanding of financial modeling and data analysis is also recommended.
