## Darktrace Internship Latest Opportunities For Students 2025

### Description

Embarking on an internship with Darktrace offers a unique opportunity to delve into the world of cyber security, working with cutting-edge technology and a team of industry pioneers. This internship is designed for those passionate about technology and security, providing a platform to learn and grow in a dynamic environment.

As a Darktrace intern, you will be immersed in the fast-paced world of cybersecurity, gaining hands-on experience with our leading artificial intelligence technology. You will work alongside seasoned professionals, contributing to projects that support our mission to protect organisations from cyber threats.

### Responsibilities

Interns at Darktrace will be entrusted with a variety of responsibilities, including:

- Assisting in the development and implementation of cybersecurity solutions.
- Conducting research and analysis to support ongoing projects.
- Collaborating with team members to identify and mitigate potential security threats.
- Participating in team meetings and brainstorming sessions.
- Supporting the creation of reports and presentations for internal and external stakeholders.

### Qualifications

To be considered for the Darktrace Internship, candidates should possess:

- Enrollment in a Bachelor's or Master's program in Computer Science, Information Technology, Cybersecurity, or a related field.
- A strong academic record with an emphasis on technical and analytical skills.
- A keen interest in cybersecurity and emerging technologies.
- The ability to work independently as well as part of a team.

### Job Benefits

Interning at Darktrace comes with a range of benefits, including:

- Exposure to industry-leading AI technology.
- Mentorship from experienced cybersecurity professionals.
- The opportunity to work on real-world projects that impact global security.
- Networking opportunities within the tech and cybersecurity industries.
- Potential for full-time employment upon successful completion of the internship.

### Experience

While prior work experience in cybersecurity is not mandatory, any relevant internship or project experience will be advantageous. Candidates with experience in coding, network security, or data analysis will find themselves well-suited to the demands of the role.

### Hiring organization

Darktrace Internship

### Employment Type
