## Description

Join Featurespace, a leader in adaptive behavioral analytics, as an intern and be part of a team that is revolutionizing fraud prevention and risk management. Our internship program offers a platform to work with advanced machine learning technology, providing a unique opportunity to contribute to real-world projects that impact businesses globally.

## Responsibilities

- Collaborate with cross-functional teams to support the development of machine learning models.
- Assist in data collection, analysis, and interpretation to enhance our adaptive behavioral analytics technology.
- Participate in brainstorming sessions to innovate and improve existing solutions.
- Provide support in testing and validating new software features.
- Contribute to documentation and reporting to aid in the refinement of project outcomes.

### Qualifications

- Currently enrolled in a relevant degree program such as Computer Science, Data Science, or a related field.
- Strong analytical and problem-solving skills.
- Basic understanding of machine learning algorithms and data analysis.
- Effective communication skills and ability to work within a team.

### **Job Benefits**

- Gain hands-on experience with cutting-edge technology in the field of fraud detection and risk management.
- Opportunity to work within a supportive and dynamic team environment.
- Exposure to real-world business challenges and solutions, enhancing your professional development.
- Networking opportunities with industry leaders and potential for career growth within Featurespace.

## **Experience**

- Prior experience or coursework in machine learning, data analysis, or software development is advantageous.
- Familiarity with programming languages such as Python or R is preferred.

### Skills

- Analytical mindset with attention to detail.
- Ability to learn quickly and adapt to new technologies.
- Strong teamwork and collaboration skills.
- Proactive approach to problem-solving.

## **Contacts**

To apply for the Featurespace Internship, please submit your resume and a cover letter detailing your interest and relevant experience through our careers page. Shortlisted candidates will be contacted for an initial interview, followed by a technical assessment to evaluate your skills and fit for the role. Don't miss the chance to kick-start your career in a forward-thinking company where innovation and creativity are at the heart of everything we do.
