## Ipsos Mori Internship For Graduate Students 2025

### Description

The Ipsos Mori Internship program offers a unique opportunity to dive into the world of market research and gain valuable experience with one of the leading global research companies. This program is designed to provide interns with hands-on experience, working on real projects alongside seasoned professionals.

Interns at Ipsos Mori will work within various departments to support market research projects. This involves assisting with data collection, analysis, and reporting. The internship aims to equip individuals with practical skills and insights into the research industry, enhancing their career prospects in market analysis and related fields.

### Responsibilities

- Participate in gathering data through surveys, interviews, and focus groups. Analyze data to identify patterns and insights.
- Assist in preparing comprehensive reports that summarize research findings for clients.
- Work alongside project managers to ensure research projects are executed efficiently.
- Engage with clients to understand their research needs and assist in delivering actionable insights.
- Collaborate with a diverse team of professionals from various backgrounds.

### Qualifications

- Currently enrolled in or a recent graduate from a relevant degree program such as Marketing, Business, Psychology, or Sociology.
- Strong analytical skills and attention to detail.
- Excellent communication and interpersonal skills.
- Proficiency in Microsoft Office Suite, especially Excel and PowerPoint.
- Enthusiasm for market research and a desire to learn.

### Job Benefits

- Gain exposure to a wide range of market research methodologies and tools.
- Build connections with industry leaders and experts.
- Receive guidance and mentorship from experienced professionals.
- Enhance your resume with significant experience in a global market research firm.
- Earn a stipend that reflects your contributions and efforts.

### Experience

While previous experience in market research is not mandatory, having some background in data analysis or working on research projects can be beneficial. The internship is designed to build on existing skills while introducing new methodologies and approaches.
